Basics:	Frontend:	Backend:	Mobile:	Extra;
HTML5	Angular	ExpressJS	React Native	WEBSOCKETS
SCSS	React	MongoDB	Ionic	BOOTSTRAP
TYPESCRIPT	Next Js	MySQL		TAILWINDCSS

Experience

🚀 **Frontend Engineer** at **Simtrak Solutions**: 17/10/23→ now

I currently work as a remote frontend developer in a company located mainly in India, since I started I have been working developing 2D animations in React Native.

https://simtrak.in/

🚀 **Freelance Full Stack Developer** at **Talents exchange**: 01/09/2023→ 10/10/23

I worked as a fullstack developer in the development of an onlyfans page, the project was developed in Nextjs, I was assigned a large number of tasks to complete in a short time, including working on registration and login, developing a browser with model filtering options, improve the interface, work on code obfuscation to avoid hacks, among many other tasks.

🚀 **Frontend Developer** at Lomi.cl: 11/2022→ 08/2023

I work as a professional remote developer for the Chilean company Lomi.cl, providing my advanced knowledge in the entire Angular ecosystem, creating software tools to

guarantee the correct functioning of your online store.

My contributions include: complete creation of an investor statistics page, login forms and session token management, improvement of the visual section of the mobile application, bug fixes and management of connection and server data.

Freelance Developer 2019 → 2021

I worked as a freelance developer, designing both the frontend and backend of web pages sporadically. I learned a lot by launching real projects, not only in terms of development tools and knowledge, but also communication and time management skills.
